Notes to the Condensed Consolidated Interim Financial Statements For the Three Months Ended March 31, 2022

(Unaudited; Expressed in Canadian Dollars)

1. Nature and Continuance of Operations

Adamera Minerals Corp. ("Adamera" or "the Company") was created in February 2013 pursuant to an amalgamation under the Business Corporation Act (British Columbia). The Company's common shares are listed for trading on the TSX Venture Exchange ("Exchange") under the symbol "ADZ". The Company also trades on the OTC Marketplace in the United States under the symbol "DDNFF". The Company is in the process of exploring its mineral properties and has not yet determined whether these properties contain ore reserves that are economically recoverable. The Company is considered to be in the exploration stage and does not have operating cash flows.

The Company's head office, principal address and registered and records office is 1100, 1111 Melville Street, Vancouver, British Columbia, Canada, V6E 3V6.

These condensed consolidated interim financial statements of the Company have been prepared in accordance with International Financial Reporting Standards ("IFRS") on a going concern basis, which contemplates that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. Accordingly, these condensed consolidated interim financial statements do not include any adjustments to the amounts and classification of assets and liabilities that might be necessary should the Company be unable to continue as a going concern and such adjustments could be material.

The Company's continuing operations as intended are dependent upon its ability to identify, evaluate and negotiate the acquisition of, participation in or interest in new properties, assets or business opportunities, and raise additional funds by way of equity financings. Any acquisition may be subject to shareholder and regulatory approval and obtaining the necessary financing. Should the Company be unable to complete such a transaction, its ability to raise sufficient financing to maintain operations may be impaired. To date the Company has not generated revenue and incurred a loss for the three months ended March 31, 2022 of \$83,746. The available funds are sufficient to continue operations for the ensuing year. Although the Company has been successful at raising funds in the past through the issuance of share capital, it is uncertain whether it will be able to continue this financing in the future. These material uncertainties may cast significant doubt on the Company's ability to continue as a going concern.

2. Statement of Compliance and Basis of Preparation

These condensed consolidated interim financial statements, including comparatives, have been prepared in accordance with International Accounting Standard 34 "Interim Financial Reporting" ("IAS 34") using accounting policies consistent with IFRS issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC").

These condensed consolidated interim financial statements have been prepared on a historical cost basis except for financial instruments that have been measured at fair value. In addition, these condensed consolidated interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

The preparation of these condensed consolidated interim financial statements in conformity with IAS 34 requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates. These condensed consolidated interim financial statements do not include all of the information required for full annual financial statements.

These condensed consolidated interim financial statements, including comparatives, have been prepared on the basis of IFRS standards that are published at the time of preparation.

Notes to the Condensed Consolidated Interim Financial Statements For the Three Months Ended March 31, 2022

(Unaudited; Expressed in Canadian Dollars)

3. Significant Accounting Policies

These condensed consolidated interim financial statements have been prepared in accordance with IFRS as issued by the IASB on a basis consistent with those followed in the Company's most recent annual financial statements for the year ended December 31, 2021.

These condensed consolidated interim financial statements do not include all note disclosures required by IFRS for annual financial statements, and therefore should be read in conjunction with the annual financial statements for the year ended December 31, 2021. In the opinion of management, all adjustments considered necessary for fair presentation of the Company's financial position, results of operations and cash flows have been included. Operating results for the three-month period ended March 31, 2022 are not necessarily indicative of the results that may be expected for the current fiscal year ending December 31, 2022.

4. Financial and Capital Risk Management

The Company classifies its financial instruments into categories as follows: cash and receivables as financial assets at amortized cost; marketable securities as FVTPL; accounts payable, Canada Emergency Business Account and due to/from related parties as other financial liabilities at amortized cost. The fair value of these financial instruments approximates their carrying value due to their short-term nature.

Fair Value

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 unadjusted quoted prices in active markets for identical assets and liabilities;
- Level 2 inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 inputs that are not based on observable market data.

Marketable securities are measured using level 1 inputs.

Credit Risk

Credit risk is the risk of a financial loss to the Company if counterparty to a financial instrument fails to meet its contractual obligations.

The Company's cash is primarily held in major Canadian financial institutions, consequently the credit risk on cash is assessed as low. The Company's receivables consist of cost recoveries and reimbursements. Management believes that the credit risk concentration with respect to financial instruments included in receivables is minimal.

Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet the financial obligations as they fall due. The Company ensures that there is sufficient capital in order to meet annual business requirements, after taking into account administrative, property holding and exploration budgets. As the Company does not have operating cash flow, the Company has relied primarily on equity financings to meet its capital requirements. The Company is exposed to liquidity risk.

Interest Rate Risk

Interest rate risk is the risk of change in the borrowing rates of the Company. The Company is not exposed to significant interest rate risk due to the short-term maturity of its monetary assets and liabilities.

Notes to the Condensed Consolidated Interim Financial Statements For the Three Months Ended March 31, 2022

(Unaudited; Expressed in Canadian Dollars)

4. Financial and Capital Risk Management (continued)

Foreign Exchange Risk

Foreign exchange risk is the risk that the fair values of future cash flows of a financial instrument will fluctuate because they are denominated in currencies that differ from the respective functional currency. The Company has operations in the USA and Canada; however, its net monetary position in US dollars is minimal and therefore is not exposed to significant foreign exchange risk.

Commodity Risk

Commodity risk is the risk on financial performance due to fluctuations in the prices of commodities. The Company's ability to raise capital to fund exploration or development activities is subject to risks associated with fluctuations in the market price of commodities for which it is exploring. The Company closely monitors commodity prices to determine the appropriate course of action to be taken.

Capital Management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to pursue the exploration of its mineral properties and to maintain a flexible capital structure which optimizes the costs of capital at an acceptable risk.

The Company defines its capital as cash and shareholder's equity.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares, issue debt, acquire or dispose of assets or adjust the amount of cash.

In order to facilitate the management of its capital requirements, the Company prepares periodic expenditure budgets that are updated as necessary depending on various factors, including successful capital deployment and general industry conditions. In order to maximize ongoing exploration efforts, the Company does not pay out dividends. The Company's investment policy is to keep its cash treasury on demand deposit in an interest bearing Canadian chartered bank account. The Company is not subject to any externally imposed restrictions on its capital. There have been no changes to the Company's management of capital during the three months ended March 31, 2022.

5. Marketable Securities

On June 15, 2021, the Company received1,000,000 shares of Churchill Resources Inc. pursuant to an agreement entered into in 2014 for the sale of the data of Amaruk Diamond property (Note 10(d)(iii)). The shares are measured and presented at fair value using the observable market share price as at the date of the statements of financial position. The gain or loss as a result of the re-measurement is recorded through profit and loss ("FVTPL").

8. Right-of-Use Assets and Lease Liabilities

The Company leased an office space under a non-cancellable operating lease for a period of five years expiring on August 31, 2025. On the commencement date, the Company recognized \$70,774 of ROU assets and \$1,257,367 of lease liabilities. The ROU asset of \$70,774 represents the portion of office space used by the Company and the residual \$1,186,593 represents the portion of office space used by sublessees.

The Company is liable for the liability under the head lease with the landlord. Sublessees have signed agreements for some of the offices within the area under the head lease, and the Company is responsible for the collection of any rental amounts from them.

The right-of-use assets and lease liabilities in relation to the lease are as follows:

10. Mineral Properties (continued)

The Company holds the following mineral claims and permits:

(a) Cooke Mountain - Washington, USA

Adamera acquired the Cooke Mountain property by staking a 100% interest in these properties in Ferry County, Washington, including the Oversight, Lambert Creek and HLK properties.

On December 13, 2019, the Company entered into a loan agreement with Hochschild Mining (US) Inc. ("Hochschild") where Hochschild lent the Company US\$40,000 (\$51,952) (the "Loan") (received in December 2019) for staking additional land for the benefit of the Cooke Mountain property. Upon the execution of the exploration earn-in agreement (the "Agreement") (see below), the Loan became part of the Qualifying Expenditures and the loan agreement was terminated.

On January 20, 2020 (the "Effective Date"), the Company entered into the Agreement with Hochschild whereby Hochschild can earn up to a 75% interest in the Cooke Mountain property. On December 15, 2020, Hochschild gave written notice and claimed force majeure pursuant to the Agreement and both parties agreed to amend the first year's Effective Date to June 16, 2020.

Under the terms of the Agreement, Hochschild has an option that can be earned in two phases.

In phase 1, Hochschild can earn an initial 60% interest in the project by incurring US\$8 million in exploration on the property over a 5-year period, with a minimum expenditure as below:

Period	Minimum Qualifying Expenditure
From the Effective Date to the 1st anniversary of the Effective Date	US\$500,000 (met)
From the 1 st anniversary of the Effective Date to the 2 nd anniversary of the Effective Date	US\$500,000 (met)
From the 2 nd anniversary of the Effective Date to the 3 rd anniversary of the Effective Date	US\$1,000,000
From the 3 rd anniversary of the Effective Date to the 4 th anniversary of the Effective Date	US\$1,000,000
From the 4 th anniversary of the Effective Date to the 5 th anniversary of the Effective Date	US\$1,000,000

The Company is the operator of the property during the initial part of the earn-in period. Upon signing the Agreement, Hochschild paid the Company US\$50,000 cash (received).

In phase 2, Hochschild can earn an additional 15% interest in the property by funding a feasibility study within a further 3-year period. During this option phase, Hochschild has the right to extend the earn in period by up to three additional years by paying the Company the following amounts:

- i) US\$200,000 for an extension of 12 months (up to the 9th anniversary of the Effective Date);
- ii) US\$300,000 for a second extension of 12 months (up to the 10th anniversary of the Effective Date);
- iii) US\$500,000 for a third extension of 12 months (up to the 11th anniversary of the Effective Date).

If a feasibility study is not completed by the end of phase 2, Hochschild's interest decreases to a 2% royalty.

10. Mineral Properties (continued)

(a) Cooke Mountain – Washington, USA (continued)

On completion of phase 2, a 75%/25% joint venture will be formed. If Hochschild elects to forego the phase 2 earn-in, a 60%/40% joint venture will be formed. In either case, each party would be responsible for financing its pro rata share of the expenditures, with Hochschild as the operator.

At any time after the formation of the joint venture, the Company may request that Hochschild provide a loan to finance all or part of Adamera's portion of qualifying joint venture expenditures. In the event of a 60%/40% joint venture, Hochschild would provide the loan to the Company in exchange for an additional 5% equity interest in the property. In the event of a 75%/25% joint venture, Hochschild would provide a loan to the Company in exchange for a 1.5% royalty payable to Hochschild. The Company will repay such loans from 70% of its earnings from the joint venture.

As of March 31, 2022, Hochschild had forwarded a total of \$2,142,155 (US\$1,670,511) for the Cooke Mountain property. The Company incurred additional recoverable expenditures in the amount of \$2,641 (US\$2,113) as of March 31, 2022 (December 31, 2021 - \$56,065), which is recorded as receivable.

(b) Empire Creek - Washington, USA

On May 21, 2014, Adamera entered into a lease and advance royalty agreement whereby the Company has the exclusive rights and lease to acquire an undivided 100% interest in the minerals rights on the Empire Creek property. Pursuant to the terms of the agreement, the following share issuances and payments are required:

- i) US\$1,000 on signing (paid) and 10,000 common shares (issued);
- ii) US\$1,000 (paid) and 10,000 common shares in the first year (issued);
- iii) 20,000 common shares on or before December 1, 2015 (issued);
- iv) 20,000 common shares on or before December 1, 2016 (issued);
- v) 50,000 common shares (issued) or US\$15,000 cash, at the Company's discretion, on or before December 1, 2017;
- vi) 50,000 common shares (issued) or US\$20,000 cash, at the Company's discretion, on or before December 1, 2018; and
- vii) 100,000 common shares (issued) or US\$20,000 cash, at the Company's discretion, on or before December 1, 2019 and each subsequent year until termination of the agreement (100,000 shares were issued on December 8, 2020 and 100,000 shares on December 1, 2021; Notes 14(b)(iii)).

The property is subject to a 2% net smelter returns royalty ("NSR"), of which the Company has the option to purchase one-half of the NSR (1%) for US\$1,000,000 and the second half may be purchased for an additional payment of US\$1,000,000.

(c) Buckhorn 2.0 - Washington, USA

Adamera acquired the Buckhorn 2.0 property by staking a 100% interest in these properties in Washington. The claims staked and recorded by the Company are subject to final determination by the Bureau of Land Management and are subject to a 1% royalty, of which 0.5% may be purchased for \$500,000 at anytime.

On May 21, 2020, Adamera entered into an agreement to lease a number of claims for a period of 6 years in Washington State for US\$1,000 (paid) and 100,000 common shares (issued). The Company may extend the lease beyond 2026 by paying US\$1,000 per year. At any time, the Company may purchase the claims for US\$50,000, subject to a 2% royalty of which 1% may be purchased for US\$1,000,000.

10. Mineral Properties (continued)

(c) Buckhorn 2.0 – Washington, USA (continued)

On September 3, 2021, the Company entered into a Data Transfer Agreement ("Agreement") with a wholly owned subsidiary of Kinross Gold Corp ("Kinross"). In exchange for this data, the Company reserves a 2% net smelter returns production royalty (the "Royalty") for Kinross on claims held on federal lands and a 0.5% Royalty on State lease land. The Company may purchase half of the Royalty for \$2,000,000.

(d) Others

i) Talisman - Washington USA and British Columbia Canada

Adamera acquired the Talisman property by staking a 100% interest in these property in Ferry County Washington and British Columbia Canada.

ii) Flaghill - Washington USA

Adamera acquired the Flaghill property by staking a 100% interest in the property in Ferry County, Washington.

iii) Hedley - British Columbia, Canada

Adamera acquired the Hedley property by staking a 100% interest in the property in British Columbia Canada.

iii) Nunavut and Northwest Territories, Canada

During fiscal 2014, the Company entered into an agreement to sell data related to certain diamond properties for \$50,000 on signing (received) and \$50,000 (received) upon claims getting registered, and 1,000,000 common shares (received) (Note 5) on registration of claims within an area of interest. The Company will retain a 2% gross overriding royalty on diamonds mined in the area of interest.

As a result of previously ceasing activities on the uranium, diamond and gold properties in the Northwest Territories, the Company is required to dispose of fuel and related camp supplies. During the three months ended March 31, 2022, the Company engaged a contractor to help clean up the site and utilized the restoration provisions (December 31, 2021 - \$151,888) and spent an additional \$52,712 for the clean up. The sight is subject to the Nunavut government's inspection.

11. Accounts Payable and Accrued Liabilities

Accounts payable and accrued liabilities are as follows:

12. Canada Emergency Business Account ("CEBA")

In April 2020, the Company received \$40,000 from the Government of Canada related to CEBA. CEBA is an interest-free loan launched by the Government of Canada to ensure that businesses have access to capital during the COVID-19 pandemic and can only be used to pay non-deferrable operating expenses. The terms of CEBA are as follows:

- i) 0% interest operating line of credit until December 31, 2020;
- ii) On January 1, 2021, this operating line of credit will be converted to a 2-year 0% interest term loan, to be repaid by December 31, 2023. \$10,000 of the loan will be forgiven if \$30,000 is repaid in full on or before December 31, 2023.
- iii) If on December 31, 2023, the Company exercises the option for a 2-year term extension, 5% interest during this term extension period will apply on any balance remaining.

14. Share Capital

(a) Authorized

As at March 31, 2022, the authorized share capital of the Company is an unlimited number of common shares without par value. All issued shares were fully paid common shares.

(b) Share Issuances

2021 transactions:

- i) On March 18, 2021, the Company completed a non-brokered private placement for the issuance of 16,250,000 units at \$0.10 per unit for a total of \$1,625,000. Each unit consisted of one common share and one-half share purchase warrant. Each share purchase warrant entitles the holder to purchase one additional common share at a price of \$0.15 until March 18, 2023. These warrants have a forced exercise price. If the closing price of the Company's shares is \$0.25 or greater for a period of 10 consecutive trading days, the warrant holder will have 30 days from the date the Company gives notice to exercise their warrants; otherwise the warrants expire on the 31st day after the Company gives such notice. The Company paid finder's fee of \$2,750 and issued 27,500 finder's warrants. The value of the finder's warrants was determined to be \$693 and was calculated using the Black-Scholes Option Pricing Model. Each finder's warrant is exercisable into one common share at \$0.15 until March 18, 2022. The Company incurred additional share issue costs in the amount of \$28,825 in connection with the placement.
- ii) During the year ended December 31, 2021, a total of 10,647,000 warrants were exercised for gross proceeds of \$532,350.
- iii) On December 1, 2021, the Company issued a total of 100,000 common shares valued at \$5,000 pursuant to the lease and advance royalty agreement on the Empire Creek property (Note 10(b)(vii)).

(c) Stock Options

The Company has established a share option plan whereby the board of directors may, from time to time, grant options to directors, officers, employees or consultants. Options granted must be exercised no later than ten years from the date of grant (or lesser period prescribed by the Exchange policies), or such lesser period as determined by the Company's board of directors. The exercise price of an option is equal to or greater than the closing market price on the Exchange on the day preceding the date of grant. The vesting terms for each grant are set by the Board of Directors. The share option plan provides that the aggregate number of shares reserved for issuance under the plan shall not exceed 10% of the total number of issued and outstanding shares, calculated at the date of grant.
